Security in Angular (WIP)

Alexander Thalhammer | @LX_T

Security (Dislcaimer: WIP)

– Updates (all npm packages)

– Content Security Policy

– Trusted Types

Agenda

Update all npm packages

- Do it frequently, at least 2 times / year

Content Security Policy

- Best practice: Set up CSP properly

- Fallback: Enable autoCSP in angular.json

Demo

Check: What CSP are you using?

ANGULAR
ARCHITECTS

Trusted Types

- secure your applications from XSS attacks

- by enforcing safer coding best practices

- simplify the auditing of application code

- Best Practice: enable Trusted Types

Dislcaimer

- I've got limited skills in the field of security

- Please consult our [Angular Security Workshop](#)
